Learning's Impact

“Orlando Then” has been a project of love and artistic interpretation, taking images from the past and combining them in a unique manner to create a new vision of past life in Orlando, Florida. The last three images, “Orlando Comes of Age” are the beginning of a series of contemporary art pieces that illustrate the impact of contemporary life influences on The City of Orlando, Florida.

The objective of this exercise is to create a series of images that could be a permanent installation at Orlando City Hall or elsewhere. The final installation could be called “Orlando Then & Now.”
